Flash stand
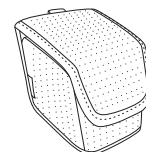

Carabiner
(NOT FOR CLIMBING)

Soft box   Pouch

Turn on the flash unit

- Press the on/ off switch. Indicator lamp A is on.
- The pilot button turns red showing the unit is charging.
- In a few seconds, the pilot button turns green.
- The flash sleep mode turns off in about 2 mintues (in A/ TTL/ M mode) or about 5 mintues (in SD/ SF mode) after the setting job is terminated.
- For a test-flash, press the pilot button.
- The power is automatically tuned off in about 60 mintues, when the flash is not in use.
